PROFESSIONAL SUMMARY

First-year undergraduate technology student with hands-on experience in AI tools, automation workflows, web development, and IoT experimentation. Built multiple projects in prompt engineering, chatbot automation, and hardware systems. Strong interest in Generative AI, embedded systems, operating systems, and full-stack development.

EDUCATION

NIAT in collaboration with Aurora Deemed to be University

First Year Undergraduate Student | Expected Graduation: 2029

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frameworks & Technologies: React.js, n8n Automation, Prompt Engineering, AI Chatbot Development, Telegram Bot Integration

Domains: Artificial Intelligence, Generative AI, IoT, DBMS, Web Development, Automation Systems, Embedded Systems, Operating Systems, HCI

Tools: Git, GitHub, VS Code, Ollama, VMware (Basic), Windows OS

PROJECTS

Prompt Wars

<https://govindasaikiran.github.io/prompt-wars/>

- Built an interactive prompt-engineering project to evaluate AI response quality.
- Designed a user-friendly interface for practical prompt experimentation.

Prompt Wars Project Two

https://govindasaikiran.github.io/prompt_wars_project_two/

- Developed an enhanced AI interaction platform with improved workflow structure.

My First Project

<https://govindasaikiran.github.io/my-first-project/>

- Implemented a frontend web project demonstrating core UI fundamentals.

n8n Telegram Agent | n8n Chatbot | QR Code Generator

- Built automation-driven chatbot and utility applications using n8n and web technologies.

Antigravity Touch Interface | IoT Projects | NAND Flash Simulation | RC Car Engineering

- Explored touch/touchless interfaces, sensor-based automation, memory simulation, and hardware integration.

CERTIFICATIONS & WORKSHOPS

- Tata Forage Certificate
 - Base44 Workshop Certificate
 - Ben10X Certificate
 - Gen AI Academy by Google - Participant
 - Hack2Skill - Participant
-

ACHIEVEMENTS & LANGUAGES

- Active GitHub contributor; built and deployed multiple projects.
- Participated in AI workshops and hackathons.
- Languages: English, Telugu, Basic German.
